## colours

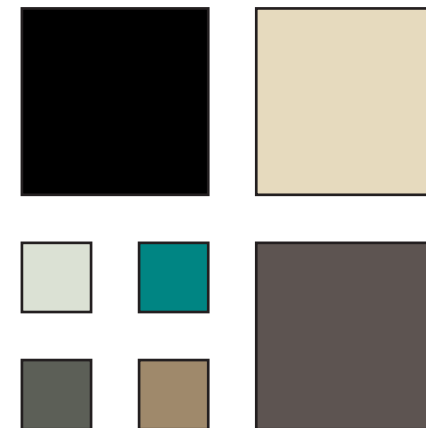

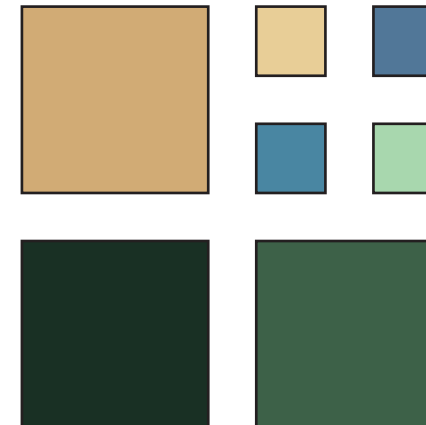

No longer does your conservatory need to be white.

Ensure your conservatory blends in beautifully with your home and its surroundings, and follows any colour restrictions imposed for listed buildings or conservation areas.

Or simply give yourself the satisfaction of being different.

 customise  
your conservatory

Our aluminium roof system can be powder coated to any RAL colour. Our most popular choices include black, grey, olive green and cream.

Alternatively the PVC or aluminium system can be foiled to a range of woodgrain effects.

## conservatory style & design

From the widely popular Victorian to the modern Gable or the increasingly popular Orangery, the choice is yours.

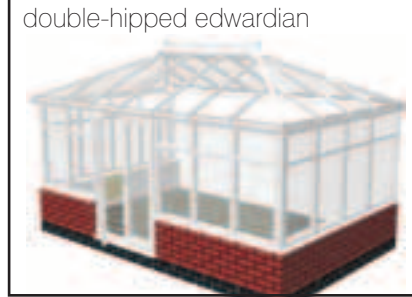

Complement your home by selecting the most suitable look, or opt for a bespoke design to achieve a highly personalised style.

glazing

With so much attention given to size, colour and style, the roof glazing can become overlooked.

Choose from our range of polycarbonate options or opt for our market leading product, Celsius high performance conservatory glass.

CELSIUS™  
PERFORMANCE GLASS

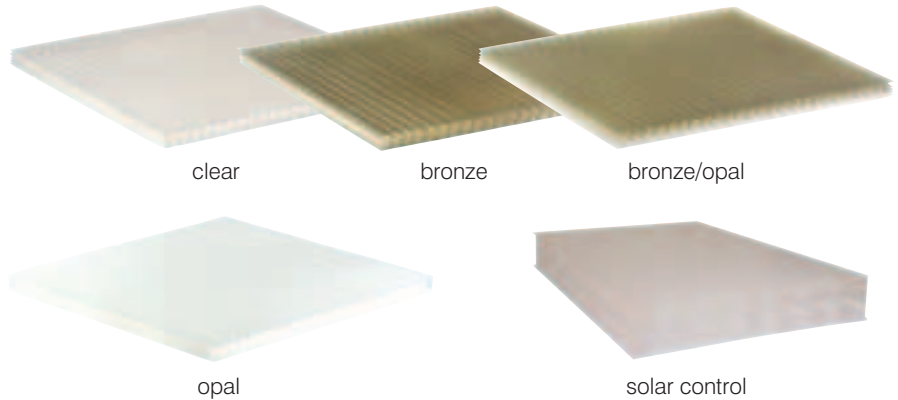

celsius glass

Celsius is a range of high performance glass engineered and designed for conservatories. The perfect addition to your new room, allowing year round use, offering increased solar protection and heat insulation.

your conservatory

polycarbonate

Polycarbonate is available in a range of options to suit most needs. It's stable at a range of temperatures, and can incorporate a Solar Control option to protect from heat build-up and heat loss.

## roof vents

Roof vents are the ideal solution to control the air flow in your conservatory.

Available in PVC and aluminium, manually operated or electrically controlled (with optional rain sensor for optimum protection), they are designed to fit seamlessly into your roof.

With an integrated drainage system, these quality engineered products hold BBA certification.

## decorative trim

Enhance and personalise the internal look of your conservatory by using decorative trims.

The wide range of colours and styles allows maximum design flexibility.

## bi-fold options

"Bring the outside in" cannot be truer when installing bi-folding doors.

These increasingly popular alternative to traditional french and patio doors, can now be fitted on a wide range of conservatory styles.

Inspired by the popularity of outdoor living, they allow you to experience the mediterranean lifestyle here in the UK.

Available not just for your new conservatory, but also for existing buildings, these large doorways give you a seamless access between home and garden.
